

Doo-Watt-Diddy-Diddy

(Sung to the tune “Doo-Wah-Diddy-Diddy,” but you probably knew that.)

There we were just a burnin’ up the lamps,
Singin’ Doo Watt Diddy Diddy, dumb, really dumb.
Using up voltage, and wasting up those amps,
Singin’ Doo Watt Diddy Diddy, dumb, really dumb.

We look bad (look bad). We not smart (not smart)
We look bad, we not smart. Everybody do their part.

Before we knew it, we were saving energy.
Singin’ Doo Watt Diddy Diddy, smart, really smart.
Saving the planet and a lot of mo-ney.
Singin’ Doo Watt Diddy Diddy, smart, really smart.

We look good (look good). We look smart (look smart)
We look good. We look smart. Everybody do their part.

(bridge)

We knew we were blowin’ a fuse -----
Yes we did, and so found some ideas everybody can use.

Now we’re together, and we’re doing what’s right.
Singin’ Doo Watt Diddy Diddy, done, get it done.
Conservation makes us look – so bright.
Singin’ Doo Watt Diddy Diddy, done, get it done.

We look good (look good). We look smart (look smart)
We look good. We look smart. Everybody do their part.

Doo Watt Diddy Diddy done, get it done. (We’re singin’)
Doo Watt Diddy Diddy done, get it done. (Turn out the lights!)
Doo Watt Diddy Diddy done, get it done.
